

Choosing ALSCT Production Teams

Feel free to contact us at any time of the year regarding your interest in upcoming production team positions.

Potential directors should know that we generally make directorial decisions in mid to late winter after our upcoming year's production has been announced (early January) and after the current show has closed (later in January). Your expression of interest and directing resume for the next year's show should be received by February 1st. Other production team positions are decided thereafter with input from the director, producers, and other Board members.

Send your expressions of interest to chair@alsct.org
